

National Curriculum

- Design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts.
- Use sequence, selection, and repetition in programs; work with variables and various forms of input and output.
- Use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs.
- Understand computer networks including the internet; how they can provide multiple services, such as the World Wide Web; and the opportunities they offer for communication and collaboration.

Key Vocabulary				
skill	logic	code	υρ	
down	tap	click	debug	
trail	program	reasoning		

Intent	Student
I can debug the code and progress through the levels with increasing difficulty	

National Curriculum

• use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.

The first lesson of each term throughout the year provides an important focus on esafety. Children explore the ever-changing issues through discussion, presentation or group work.

Intents	Student
I know that the internet can be dangerous and I must not share	
personal information (including pictures in school uniform)	
I know the potential impact of posting pictures on the internet and	
that once posted, they never fully disappear.	
I know the potential impact of cyberbullying on self esteem	
To know that the need to be 'liked' can lead to bad decision making	
on Social Media	
I know that people are not always who they say they are and	
understand the term 'grooming'	
I know that age restrictions apply to certain 'Apps' and Websites	
I know that the internet can have a positive impact on the world and	
that there are positive role models.
