

# COMPUTING

## DIGITAL COMMUNICATIONS & THE WEB

### National Curriculum

- understand computer networks including the internet; how they can provide multiple services, such as the world wide web; and the opportunities they offer for communication and collaboration.
- use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content.
- select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information.
- use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.

URL	Internet	HTML	domain
packet	data	coding	packet
scam	trolling	www	network
communication	hub	transfer	website

Intents	Student
I know what a URL is.	
I know the difference between the internet and the world wide web	
I Know what happens when you type in a URL.	
I Know how the Internet Works	
I Know what HTML is
