

COMPUTING

Digital Communications and the web

National Curriculum Objectives

- use technology purposefully to create, organise, store, manipulate and retrieve digital content
- recognise common uses of information technology beyond school
- use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies.

Intents	Student
I can upload digital content to a website using a 'web-name'.	
I know the importance of creating an Avatar.	
I know how to make up a username and profile.	
I use simple keywords to search a website.	
I can recognise if a website is safe and good for me to visit.	
I can enter a web address into the address bar.	
I know how to report unpleasant web content.
