

# Plants

# Biology

**Year 1**

<u>National curriculum objective</u>
Identify and name a variety of common wild and garden plants, including deciduous and evergreen trees
Identify and describe the basic structure of a variety of common flowering plants, including trees.
Observe and describe how seeds and bulbs grow into mature plants
Find out and describe how plants need water, light and a suitable temperature to grow and stay healthy

Key Vocabulary (topic words must be spelt correctly throughout topic)

plant	tree	flower	compost
stem	root	evergreen	food
branch	trunk	water	shade
nutrients	fruit	Warmth	blossom
leaf	seed	sun	bulb
grow	deciduous	Light	

Substantive - Subject Knowledge    Bigger Picture - Support words

Glossary of key terms you want to remember

deciduous	A tree that loses its leaves in autumn
evergreen	A tree that keeps its leaves all year round

Learning Intent Questions	PA	TA
What are the most common garden plants and how can I identify them?		
What are evergreen and deciduous trees and how can I identify them?		
How can I identify the structure of different flowering plants and trees?		
What observations can I make about how seeds and bulbs grow into mature plants?		
How can I investigate what plants need to stay healthy? (including water, light and a suitable temperature)
