

Animals Including Humans

Biology

Year 4

National Curriculum Objective

Identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat

Describe the simple functions of the basic parts of the digestive system in humans

Construct and interpret a variety of food chains, identifying producers, predators and prey

Key Vocabulary

predator	consumer	prey
nutrition	digest	enzyme
producer	prediction	experiment
fair test	investigate	food chain

Substantive – Subject Knowledge Bigger Picture – Support words

Glossary

nutrition	
enzyme	

Question driven outcomes for knowledge:

	Pupil	Teacher
Why do animals, including humans, need the right amount of nutrients, and how do they get nutrition from what they eat?		
What are the basic parts of the digestive system in humans?		
What are the functions of the basic parts of the digestive system in humans?		
How can I interpret and construct a variety of food chains to identify producers, predators and prey?
